Metro, Lampung

Information Systems graduate with hands-on experience in computer vision data annotation and dataset preparation for AI models. Skilled in bounding box labeling, data validation, and annotation consistency, contributing to high-quality training datasets. Proven ability to improve workflow efficiency and build internal tools, including an AI-powered glossary platform. Seeking opportunities in AI, Data, or Machine Learning-related roles.

Work Experiences

PT Great Giant Pineapple - Lampung, Indonesia

Nov 2025 - Present

Computer Vision Internship

PT Great Giant Pineapple (GGP) is the world's largest integrated private producer, exporting 15,000+ containers annually to 60+ countries with a 25% global market share.

- Standardized annotation guidelines, reducing labeling inconsistencies and improving dataset quality.
- Annotated image datasets using bounding box techniques for object detection models.
- Developed "DIGGIE", an AI-assisted internal glossary platform to standardize technical terms.
- Curated 100+ technical terms, improving cross-team communication and knowledge accessibility.

PT. Idea Indonesia Akademi, Tbk - Lampung, Indonesia

Jul 2025 - Nov 2025

PT Idea Indonesia Tbk (IDEA) specializes in hospitality management and official recruitment for international hotels and cruise lines

- Delivered practical English training focused on real-world communication
- Created structured learning materials tailored for vocational students
- Built an immersive English-speaking environment to improve student confidence

Education Level

Institut Informatika dan Bisnis Darmajaya - Lampung, Indonesia

Sep 2021 - Jul 2025

Bachelor of Information System, 3.86/4.00

- Selected as university representative in GEMASTIK National ICT Competition
- Active debate participant, strengthening analytical and critical thinking skills

Organisational Experience

Information Systems Student Association - Lampung, Indonesia

Sep 2022 - Sep 2023

Education and Training Staff

- Initiated peer-learning program for first-year students
- Organized structured study sessions and academic materials

Karnaval IT - Lampung, Indonesia

May 2023

Lead Coordinator – Training Coding

- Led province-level coding training for high school students
- Delivered beginner-friendly programming sessions

Skills, Achievements & Other Experience

- **Hard Skills:** Roboflow, Label Studio, Python, HTML, CSS (Tailwind), JS, PHP (Laravel)
- **Projects** (2026): AI-Powered Internal Glossary "DIGGIE" | Web Developer & Data Curator
- **Projects** (2026): Experienced in Bounding Box and Image/Video data labeling
- **Modules Taken** 🎓 (2024): Completed an intensive program covering the full machine learning workflow from IBM
- **Achievements** 🏆 (2019): 1st Place - National Islamic Intelligence Competition (Fahmil Quran)
- **Effective Communication:** Skilled in technical and non-technical dialogue, proven by teaching and coordinating provincial events.
- **Highly Disciplined:** Strong work ethic with a focus on data accuracy and detail.
- **Adaptive:** Fast learner in adopting new AI tools and methodologies (e.g., transition from Web Dev to Data Annotation).
